# REPORT ON TREE PLANTING EXERCISE AT MALIMBALIMBA VILLAGE, KARONGA DISTRICT AND MISUKU IN CHITIPA DISTRICT

With help from ***Umoza na Malawi - Germany***, Heimatliebe institute in collaboration with the TIAS Group organized a tree planting exercise on 16<sup>th</sup> January, on 1<sup>st</sup> February and on 9<sup>th</sup> March 2026 at Malimbalimba village in Karonga district and in Misuku, Chitipa district under the theme “***we put roots in the ground and hope in the future***”. The trees were planted at Malimbalimba primary school (***with the participation of pupils***), around the Malimbalimba church and in Misuku in Chitipa. The tree planting exercise aimed at providing fresh and nutritious fruits, provide shade, improve air quality and prevent soil erosion.

The event started with purchasing seedlings from a certified seedling seller to ensure that we buy healthy and good quality seedlings, as seen in the pictures below:

**Figure 1:** Pictures captured during the seedling purchase

After procurement, the seedlings were transported to the planting sites and temporarily stored under shade to prevent dehydration. The planting area was then prepared by clearing weeds and digging planting holes at recommended spacing

Heimatliebe Institute and the TIAS Group are sincerely grateful for the support to make this tree planting exercise impactful. Your generous contributions made it possible to purchase the seedlings, organize transportation, and carry out the activity successfully in both Malimbolimba and Misuku.

Your support has played an important role in promoting environmental conservation and community wellbeing. The trees planted during this exercise will serve as a lasting reminder of your commitment to a greener environment as **we put roots in the ground and hope in the future.**

*Yours Sincerely,*

**Davie Mumba**  
**Supervisor**

**Monica Mulwafu**  
**Projects Lead**
